

I am using a Macbook Pro 2015 15-inch running Ubuntu 21.10 with Xfce 4.16.

I am using Geany as my editor:

I am using g++ or gcc, the compiler that shipped with my Ubuntu install. The terminal I am using is Hyper, using a custom command prompt style I made myself:

aaron@test-MacBookPro: ~/comsc110

~

▲ cd comsc110

~/comsc110

▲ g++ hello.cpp -o hello && ./hello

Hello World!

~/comsc110

▲ █

The working folder I am using is called comsc110:
